SUMMARY

- As a Master's student in Applied Data Science with close to 2 years of professional experience as a Data Engineer. Also, I am advancing my expertise through specialized coursework in Big Data, Cloud Computing, Distributed Systems, and Data Modeling. My focus on technologies like Apache Spark, Hadoop, and cloud platforms (Azure and AWS) complements my hands-on experience in designing ETL pipelines, managing data lakes, and optimizing data workflows. With strengths in Spark optimization techniques, real-time data streaming, data warehousing, and advanced data modeling, I am passionate about leveraging cutting-edge data engineering tools to deliver impactful, scalable, and data-driven solutions for business growth:

EXPERIENCE

- Data Engineer-1, Latentview Analytics, Chennai, India** Aug 2021 - Apr 2023
 - Database Restructuring and Optimization:** Spearheaded database reorganization using HQL, Apache Oozie, Shell scripting, and PySpark, enhancing data retrieval for a Fortune 50 client.
 - ETL Pipeline Monitoring and Management:** Monitored and maintained 13 daily ETL jobs from SQL Server to Hadoop, optimizing execution and minimizing downtime.
 - Azure Databricks Migration:** Migrated data pipelines and scripts from on-premises to Azure Databricks, reducing infrastructure costs and improving scalability.
 - Incremental Data Loading Implementation:** Implemented two production-grade reporting pipelines with complex incremental data loading, optimizing data processing.
 - Technological Stack Proficiency:** Streamlined data workflows using Hadoop, Hive, PySpark, SQL, Azure Databricks, and Apache Oozie for efficient decision-making.

EDUCATION

- Master's in Applied Data Sciences** Jan 2024 - May 2025*
Clarkson University, Potsdam, New York
Courses: Data Mining, Applied Machine Learning, Data Warehouse, Analysis Of Algorithms, Project Management, Statistics
- Post Graduate Program in Data Science and Engineering** Oct 2020 -May 2021
Great Lakes Executive Learning, Bengaluru, India
Courses: Python, SQL, Probability, Machine Learning, Big Data
- Bachelor of Technology - Computer Science and Engineering** Aug 2016 - Jun 2020
Christ University, Bengaluru, India
Courses: Operating Systems, Data Structures and Algorithms, Databases, Software Engineering, Object-oriented programming(OOPS)

SKILLS SUMMARY

- Languages:** Python, SQL, Scala, Bash, JAVA, JavaScript, C
- Frameworks:** Apache Hadoop, Apache Spark, Pyspark, Apache Kafka, Oozie, Scikit, NLTK, SpaCy, TensorFlow,
- Tools:** GIT, PostgreSQL, Jira, Collibra, MySQL, SQLite, Tableau
- Platforms:** AWS, Azure, Databricks, Linux, Windows
- Soft Skills:** Problem-Solving, Leadership, Writing, Communication, Stake Holder Management, Time Management

PROJECTS

- Airline Passenger Satisfaction:** The Airline Passenger Satisfaction project employed various classification algorithms, selecting the optimal model based on metric evaluation. Through Randomized SearchCV, we fine-tuned the hyper-parameters to uncover factors directly and indirectly influencing satisfaction, aiding airlines in revenue enhancement. This involved usingskills in Data Cleaning, Visualization, Pre-processing, and implementing ML algorithms, resulting in valuable business insights for the aviation sector
- Fortified Cloud:** The project aimed to create a secure and cost-effective cloud data-sharing scheme for dynamic group members, minimizing maintenance costs. It addressed challenges in untrusted clouds by implementing key distribution without external channels, fine-grained access control, and user revocation using a polynomial function. The solution ensured consistent performance, even with user additions or removals.
- Online shopper intention :** Analyzed online shopping visitor behavior using unsupervised learning to identify revenue-generating patterns. Conducted cluster analysis and dimensionality reduction for insights into shopper behavior and revenue impact.

CERTIFICATIONS AND TRAININGS

- Alteryx Foundation Micro-Credential Certified, 2024
- HIVE to Advance HIVE (real time usage): Hadoop querying tool, Udemy, 2021
- Completed Databricks Associate Data Engineer Training, 2023
- Python and SQL for Data Science, Win Corporate Training, Bangalore, 2021
